INTRODUCTION

What is the Clearinghouse?

The Utah Statewide Clearinghouse on Law-Related Education is part of the Utah Law-Related Education Project at the Utah State Office of Education. It is a lending library of citizenship, constitutional, consumer, law-related, values, and character education curriculum materials.

The Clearinghouse was opened in November 1980. It was originally housed at the Third District Court, then at the Fifth Circuit Court. It is presently located on the ground floor at the rear of the Textbook Library at the Utah State Office of Education in Salt Lake City.

Purpose of the Catalog

All materials located at the Clearinghouse are available to be checked out free of charge by educators, lawyers, court and corrections personnel, and the general public. Materials available include books, booklets, games, kits, films, videos, posters, and computer software. The Catalog has been organized topically. Entries are listed in only one category in the catalog but may obviously apply to another topic. It is suggested that teachers refer to the topic of their choice, but also become familiar with other general topics. Within each topic, entries are in alphabetical order. Each entry has a short annotation, grade level, and may also list the author, publisher, date, and number of pages. Following each title is the log number (L-). Please refer to materials by titles and log number (L-) when ordering.

Ordering Materials

All materials listed are available to be checked out free of charge on a three-week loan basis. Date due cards are found in all materials to remind you when items are due. Because we have limited quantities of most items, we will be unable to meet your or other's requests, if materials are not returned on time. It is preferable that materials be picked up and returned in person to the Clearinghouse. However, the Clearinghouse will mail materials outside Salt Lake County at our expense, as long as return mailing expenses are paid by the borrower. Lost or damaged materials must be replaced by Clearinghouse users.

For your convenience as well as ours, please order materials by phone or mail at least two days before picking them up.

Date rape occurs in every high school in every town and city in the United States. Boys excuse their actions by saying, "She wanted it, she owed it to me, she knew what we were there for." Date Rape cuts through these rationalizations by getting to the heart of the matter: no means no, forced sex is rape, rape is a felony punishable with jail time. This video aims at sensitizing teenagers to the emotional, psychological, and legal ramifications of an act of sexual violence. A dramatized incident of date rape combines with narration by teenage hosts, first-person accounts of date rape victims, and observations by law officers and adult counselors in prevention of, treatment for, and recovery from date rape.

It is a return to the streets, churches, courts, and schools where the struggle raged. Meet the people who challenged history. Relive the pain, the protests, the sacrifice, and triumph of the grass roots struggle for racial equality.

This video focuses on the catalytic events of 1954-56. The Mississippi lynching of 14-year-old Emmett File led to a widely publicized trial where a courageous black man took the stand and accused two white men of murder. In Montgomery, Alabama, Rosa Parks refused to yield her bus seat to a white man and triggered a year-long boycott that resulted in the desegregation of public buses. Ordinary citizens and local leaders joined the racial struggle for freedom. Racial discrimination finally became a political issue.

This video follows the struggle for equality from the schoolroom to the courtroom and back, as blacks reject the existing system of "separate but equal" education. In 1962, a resolute James Meredith enrolls at the University of Mississippi. Students, parents, and lawyers unite to guarantee a better education and a better future for their children.

This episode chronicles the courage displayed by thousands of young people and college students who joined the movement and gave it new direction in 1960. Lunch counter sit-ins spread across the South, many organized by the new, energetic Student Non-Violent Coordinating Committee. In 1961, on the freedom rides, many young people faced violence and defied death threats as they labored to obliterate segregation in the interstate bus travel below the Mason-Dixon line. The growing movement toward racial equality influenced the 1960 presidential campaign, and federal versus states rights became an issue.

Eyes on the Prize: Episode 4 - No Easy Walk 1962-66 (L-950) Video 10-12

This episode explores a crucial phase in the civil rights movement--the emergence of mass demonstrations and marches as a powerful protest vehicle. In Albany, Georgia, police chief, Lauri Pritchett, challenged Reverend Martin Luther King, Jr.'s tactics of nonviolent mass demonstration. In Burmingham, Alabama, school children steadfastly marched against the violent spray of fire hoses and were jailed as a result. The triumphant 1963 march on Washington, D.C., captured worldwide attention and gathered broad national support, helping to shift federal policy.

Eyes on the Prize: Episode 5 - Mississippi: Is This America? (L-951) Video 10-12

This episode focuses on the extraordinary personal risks faced by ordinary citizens as they assumed responsibility for social change, particularly during the 1962-64 voting rights campaign in Mississippi. The state became a testing ground of constitutional principles as civil rights activitists concentrated their energies on the right to vote. White resistance to the sharing of political power clashed with the strong determination of movement leaders to bring Mississippi Blacks to the ballet box. In Freedom Summer 1964, tension between white resistance and movement activists climaxed in the tragic murder of three young civil rights workers.

Eyes on the Prize: Episode 6 - Bridge to Freedom (L-952) Video 10-12

In this final episode, the lessons of a decade are brought to bear on the climatic 1965 march from Selma to Montgomery, Alabama, when thousands joined together to march 50 miles for freedom. During the drive to make voting rights a national issue, strategic and biological differences began to surface between Dr. Martin Luther King, his SCLC, and the younger activists of SNCC. As "blackash" and segregationists resistance intensified, President Lyndon B. Johnson promised to further the movement's legislative goals. Then as the movement began to splinter into factions, the Voting Rights Act became federal law.
